

In these difficult times, Omni Supply is committed to the health and well-being of our families, colleagues, customers and partners who are part of the Omni Supply family. It is our top priority to continue to provide the products, support and services necessary to support our customers.

To Our Customers,

As we work to navigate the uncertainty of COVID-19, you can continue to count on [Omni Supply](#). We are here to support you and your business so that you can be focused on meeting the needs of your organization and your customers.

Today, March 20, 2020 Governor Pritzker of Illinois announced a “*Stay at Home*” order for all Illinois residents effective Saturday, March 21, 2020. The order does exempt those employed in essential services.

As Omni Supply’s products are considered essential for safety and for parties to meet applicable national standards, we will still be able to receive, process and ship orders. However, in order to minimize our employees’ potential exposure to Covid-19 all of our employees, with the exception of our warehouse person, will be working from home.

We have put the necessary systems in place so as to minimize disruptions in service and are here to continue to support you. You may still contact us as you have had in the past, or you may contact us directly.
